Self-discipline can help you to reach your own goals, doesn't matter which way - you could reach it and all depends on you.

About me

As a highly motivated and driven individual, I am committed to achieving my goals and continuously improving myself. With excellent communication skills and the ability to work well under pressure, I am always ready to take on new challenges and learn new skills. I am currently seeking a position that will allow me to gain valuable experience and further develop my expertise in the field. My long-term goal is to specialise in AI Engineering and Data Science, and I am eager to pursue opportunities that will help me achieve this objective.

Education

Python Backend developer
